

PODCASTS

02 JULY 2020

Former Global Head of Derivatives at Koch Supply & Trading and now Managing Partner of Pentathlon Investments, Ilia Bouchouev, joins Paul to explore the financialization of the commodities markets, the recent market turmoil, the rise of quants and algorithmic trading, the lasting impact of COVID-19 and the outlook for commodities as an asset class for investors.

What is the background and impact of negative oil prices? What was the impact of Dodd-Frank on financialization of commodities market? Given recent scandals in Asia is more regulation needed? How prevalent are algorithms in the commodities world? What does this mean for active vs passive trading? What have been the catalysts to changes in the market? What's the long-lasting impact from COVID-19 on commodities space? What is the future of commodities as an asset class? Who are the institutional investors?

The HC Insider Podcast

Each day, around the world, we have fascinating one-on-one conversations with our connections. Our collaborators are uniquely informed, creative and inspirational in their fields. We want to provide our community a seat alongside us, listening in to these conversations in that special way podcasting provides as we tackle topical and people related issues with the leaders and leading minds in our sector.

This article was produced as part of HC Insider. HC Insider is Human Capital's dedicated media service. In addition to providing subscribers with relevant and informative editorials, we also report on people moves in the energy and natural resource world.
